

Peak

EXPERIENCES IN HIGH-IMPACT LEARNING

Our signature Peaks will give you a competitive edge in future academic and professional endeavors.

“Peak is an opportunity for students to take learning beyond the classroom, preparing them to think critically, engage with real-world problems, and reflect on vocation and purpose.”

— DR. LISA TWOMEY

Director of Community Engagement and Integrative Learning
Associate Professor of Spanish

All undergraduate students will need to fulfill **two** approved Peaks in their time at Concordia but may take as many Peaks as they would like. Peaks are meant to be interdisciplinary; experiences within your major may not be required, depending on your area of study.

EXAMPLES INCLUDE:

- ▶ Internships
- ▶ Research
- ▶ Leadership Roles
- ▶ Community Engagement
- ▶ Study Away
- ▶ Service Projects
- ▶ Unique Courses
- ▶ Or propose your own Peak!

DEVELOP NEW PERSPECTIVES

“I was an associate resident assistant in Hallett, where I oversaw my hall, took care of my residents, and planned events. For me, being an ARA really made me step out of my comfort zone, and that made school more fun and enjoyable.”

— **Sady Swiers '27**

MAJOR | Business Marketing

MINORS | Web Design and Development, Data Analytics

“I went to Cuba for an Exploration Seminar as a Peak. We were able to spend a lot of quality time with the locals. Once you learn how to create those relationships with people, you just become happier.”

— **Luke Wilts '26**

MAJOR | Healthcare Leadership

MINORS | Accounting, Spanish

“I took a Peak course called Religion, Race, and Social Justice. By having discussions and open dialogue with youth in the juvenile detention center, we saw the very real impacts of what we read about in a way that’s much more emotional than just reading from a textbook.”

— **Phia Revoir '26**

MAJORS | Environmental and Sustainability Studies, Political Science

MINOR | Philosophy

CONCORDIA COLLEGE

MOORHEAD, MINNESOTA
