

Dear Paulette,

As I hope you have heard from Cobbers and others who care about this amazing place, **there's a lot of energy and excitement on campus** these days! As we've been thinking this past academic year about what's possible in our region and our world, and as we've been developing **new and innovative programs** while investing in scholarships and in our infrastructure, we've been talking a lot lately about the **power of momentum**. Wonderfully, that momentum has become a real and truly felt thing on campus and in the community — and everyone can feel it — students, staff, faculty, families, and our partners in Moorhead and Fargo. **Perhaps the best and most exciting proof of this shared sense of energy is the fact that we will soon be welcoming our biggest incoming class in five years!**

These incoming students, like all the Cobbers who came before them, are truly at the heart of everything we do. They are the reason for the excitement. By supporting them — and by investing in this moment in the history of the college — you are helping to give them the invaluable gift of a Concordia education, one that will shape them and their communities for decades to come.

We sincerely appreciate all the ways you support the Cobber community, and we are so grateful to you. You are ensuring that today's students can, like so many generations of Cobbers before them, succeed in ways beyond even their highest hopes and expectations and, in so doing, go out and **"influence the affairs of the world."**

On behalf of the students, and all of us on campus who are blessed to be at this incredible place at this exciting time in its history, I want to say thank you! Thank you for your support. Thank you for listening. Thank you for your prayers. **Thank you for lending your voice to this story of success.** Paulette, we have such great energy and so much of that has to do with the support of generous and caring people like you.

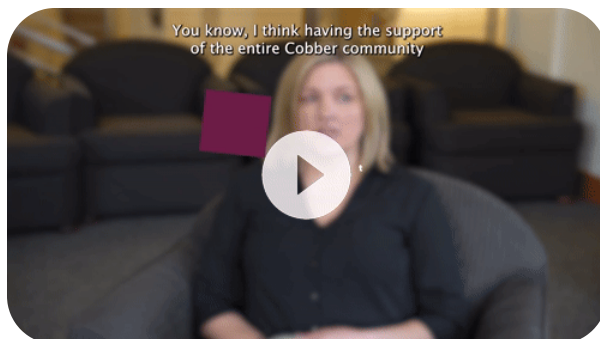

Roll Cobbs! Soli Deo Gloria!

Have a great summer,

Colin Irvine

President Colin Irvine

THANK YOU FOR INVESTING IN STUDENTS
