

## DEPARTMENT & PROGRAM SESSIONS

### Various Locations

# 2022

#### **Art | Olin 207**

##### **Between Art History and Art Practice**

Each year for COSS we invite an alum of the art department to give a talk to our students about their path after Concordia and how they used their training in the department in either their careers or their further studies. Just before lunch during COSS, the department meets in the gallery to open the Senior Art Exhibition. After a brief ceremony we meet in the Drawing Studio to have a departmental lunch and to watch a lecture from our invited speaker. This has been a great experience for our students as they get to hear directly how someone used their education from Concordia. It is an extremely well-attended event with lots of rich discussion and really shows the multitude of paths open to our students

#### **Communication Studies and Theatre Art | Lab Theatre**

##### **CSTA Honors and Awards Ceremony**

Please join the Communication Studies and Theatre Art Department at the Celebration of Student Scholarship. The newest members of Lambda Pi Eta, the national communication honor society, will be inducted at this ceremony. We will also be presenting department awards to this year's honorees. Invite your families and friends to share this day with us.

#### **History | Jones C-D**

##### **Phi Alpha Theta Induction Ceremony and Lunch**

The History department will welcome new inductees into the Phi Alpha Theta honor society. Lunch provided to inductees and faculty.

#### **Physics | ISC 249**

##### **Sigma Pi Sigma Physics Honor Society Induction**

The Physics Department will welcome and celebrate new inductees into the honor society Sigma Pi Sigma.

## **Psychology | ISC 106**

### **Psi Chi Honors Induction and Psychology Job Panel**

Come celebrate our Psi Chi Honor Society inductees and learn about psychology-related job opportunities (both internship and post-graduation!) from a panel of representatives from local agencies, including Anne Carlsen Center and Solutions Behavioral Health. Refreshments will be provided.

## **Social Work | Old Main 131**

### **Lessons from the Field**

Field placement and seminar are considered the capstone experience for a social work major. The process of securing a placement and navigating the professional waters of an agency are both challenging and rewarding. This transformative semester offers great opportunity for growth professionally and personally. Senior Social Work students currently engaged in their field placement will present on lessons they learned through the process of placement exploration, the incorporation of the core curriculum in their agency setting, their personal and professional growth, as well as the transition from student to professional roles. Undergraduate social work majors are encouraged to attend to gain understanding of this capstone experience.

## **STEM | ISC 260**

### **Information Session for Undergraduate and Graduate STEM Research Opportunities at Scripps**

Are you interested in summer or academic-year research opportunities in STEM fields at a premier research institution? Are you considering graduate school? Bring your lunch to ISC 260 and hear from current Cobbers and alumni about their experiences at Scripps. Dr. Mark Sundrud '00 will speak about his experience leading a lab at Scripps and give helpful tips for grad school applications. Anh Nguyen '21 along with current students Reilly Mach, Leo Smith, and Luke Bergstrom will talk about their experiences conducting summer research with Scripps and applying to graduate school. Light refreshments provided.
