

Notes:

- The IRS Data Retrieval is the preferred method to verify tax information because it is the fastest, easiest and most **secure** method available.
- You do **NOT** need to complete all three methods. You can choose whether to complete the IRS Data Retrieval, to request a Tax Return Transcript, or send a signed copy of the 2018 Tax Return 1040 with all schedules attached. Again the preferred method is the IRS Data Retrieval.
- Nontax filers and tax filers who received an extension but still have not filed their income tax return must provide confirmation of nonfiling dated on or after Oct. 1, 2019. A confirmation of nonfiling can be obtained from the IRS using Form 4506-T and checking box 7. If appropriate, a similar confirmation from another taxing authority (e.g., a U.S. territory or a foreign government) is also acceptable.
