

Dear Karin,

We're excited to share an important update from the Offutt School of Business!

As part of our ongoing commitment to ensuring our programs reflect both academic excellence and industry relevance, we have officially renamed our **Master of Science in Management Science and Quantitative Methods** to the **Master of Science in Business Analytics**.

What's changing?

Just the name. The curriculum, world-class faculty, and rigorous approach to data-driven decision-making remain the same. This program still:

- **Teaches data analysis, leadership skills, and business operations**
- **Increases your career and earning potential**
- **100% online, less than 2 years, and 35 credits**

Why the change?

The new title more clearly communicates the program's focus and aligns with the evolving language of the business world. It also helps strengthen the recognition of the degree for graduates in today's competitive job market.

If you are interested or would like more information, please reach out to MSBA@cord.edu soon! **Applications for this fall are due Aug. 1.**
