

## REQUIRED STUDENT COVID TESTING

### Who does this requirement apply to?

This testing requirement applies to students who physically come to the Moorhead campus if *any* of these are true:

- You are not vaccinated
- You are not yet fully vaccinated (two weeks after your final dose)
- You have not provided your vaccination status (by filling out the [Student COVID Vaccination Form](#) or by contacting the COVID Helpline directly)

You are exempt from this testing requirement if:

- You are fully vaccinated (and have provided this information through the COVID Vaccination Form)
- Or if you had a lab-confirmed case of COVID in the last 90 days

### When do I get tested?

If you are required to get tested, based on the info above, you should get tested bi-weekly (every other week). The schedule below shows which weeks are considered ‘testing weeks’ and which weeks are ‘reporting weeks.’

Testing Weeks: Test between these dates	Reporting Weeks: Random sampling of students contacted to provide their results from the previous testing week

### Where do I get tested?

There are a number of free community testing sites available. The closest is the [Vault Health Site](#), a few blocks from campus. Note that this site is only open Mon-Thurs. You can see even more local testing sites in the ConcoLife App (in the Resources section). Your test can be a PCR test or a rapid test.

### What do I do with my test result?

On the Monday of each ‘Reporting Week,’ a random sampling of students will be contacted to submit their test result from the previous Testing Week. Test results should be submitted using the [Required Testing Form](#). Failure to comply may result in referral to the conduct system and/or a \$50 fine.
